Volume 46—Contents

NO. 1. JANUARY 1966

1 Applications of Hodgkin-Huxley Equations to Excitable Tissues
Denis Noble

51 Quantal Nature of Synaptic Transmission
A. R. Martin

67 Effect of Cold on Metabolic Use of Lipids
E. J. Masoro

102 Electrical Potentials of the Cochlea
Ernest Glen Wever

128 Human Circadian Rhythms
J. N. Mills

NO. 2. APRIL 1966

173 Neural Mechanisms of Taste
Bruce Oakley and Robert M. Benjamin

212 Physiological Adaptations in Diving Vertebrates
Harald T. Andersen

244 Lipids in the Economy of Marine Invertebrates
Arthur C. Giese

299 Physiology of the Swimbladder
Ragnar Fänge

323 Peroxisomes (Microbodies and Related Particles)
Christian de Duve and Pierre Baudhuin

NO. 3. JULY 1966

359 Delayed Hypersensitivity
Jonathan W. Uhr

420 Cholinergic Link Hypothesis in Adrenergic Neuroeffector Transmission
C. B. Ferry

457 Movements of the Large Intestine
Sidney C. Truelove

513 Neural Modeling
L. D. Harmon and E. R. Lewis

NO. 4. OCTOBER 1966

593 Mechanism of Action of Aldosterone
Geoffrey W. G. Sharp and Alexander Leaf
634 Motor Functions of the Ruminant Forestomach
A. F. Sellers and C. E. Stevens
662 Quinones in Energy-Coupling Systems
Frederick L. Crane and Hans Low
696 Physical Aspects of Flagellar Movement
M. E. J. Holwill

CORRIGENDA

Denis Noble, "Applications of Hodgkin-Huxley Equations to Excitable Tissue," p. 4, *eq. 6a*, should read:

$$\frac{\partial^2 E_m}{\partial x^2} = {}^{\bullet}R_2\left(C_m \frac{\partial E_m}{\partial t} + I_i\right) - \frac{1}{x}\frac{\partial E_m}{\partial x}$$
